ROOMBA COMBO J7+

Neat freaks rejoice. This October, iRobot will debut Roomba Combo j7+, the first and only 2-in-1 cleaning device that lifts its mop by itself to the top of the robot when on carpet. By doing the vacuuming and mopping concurrently, the wet vacuum seamlessly transitions between floor types, from carpeted to non-carpeted surfaces in one go. It also gets smarter over time, learning how best to navigate your floors, remembering specific rooms and certain furniture to clean where it's most needed.
