

SYNC OR SWIM

DRONE ARTIST BRAD WALLS FINDS SYMMETRY IN AND OUT OF THE POOL.

Midsummer, 43" x 52"

Emergence, 48" x 48"

Brad Walls is a fine-art photographer based in Sydney, Australia, who found his drone niche among the company of synchronized swimmers, rhythmic gymnasts and ballerinas, whom he often captures in locations that aren't always what they seem — swimmers in the sand dunes of Australia, for example, or ballerinas in the salt flats of Utah. His recently published book, *Pools from Above*, focuses on the abstract beauty and symmetry of swimming pools around the world.
